Internships

Netedge Solutions Pvt Ltd.

From May 2016 to June 2016

I was a trainee under this institution. Our trainer was Mr. Nishant Katariya. I got an opportunity to get to learn android. I worked on Eclipse and Android Studio.

Projects: Some projects were completed during the training which shows functionality like uses of various views, designing creative UI using Navigation Drawer and Fragments, putting validations, handling data etc.

NASSCOM

From May 2017 to June 2017

I worked as an Intern under NASSCOM. My team has total 5 members in which my rank was as a team leader. We worked on Java technology with Eclipse IDE.

Project: “ **Discussion Portal**” We created a portal were a candidate candidate can put his thoughts about a subject. In response of that thought other person can also reply. Moreover, anyone can also upload any type of document regarding to the topic.

Final Year Project “CATCH”

The project Catch was a mini version of Google Map which include an edit text for searching places and some buttons for hospitals, restaurants and colleges. To create functionality our team integrated some Google APIs in the project, Also, we added some splash screen and some creative user interface.
