PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 5+ years of experience in designing, developing, and delivering high-quality software solutions. Demonstrated expertise in full software development lifecycle (SDLC) methodologies including Agile, Waterfall, and Iterative models. Proven ability to analyze complex requirements, architect scalable solutions, and contribute effectively across all phases of development—from analysis and design to coding and documentation.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS

Frameworks & Libraries: React, Angular, Redux, Flask, NumPy, Pandas, Bootstrap, NPM, JQuery

Databases: MySQL, SQLite

Developer Tools: Git, Docker, AWS, Jira, VS Code, Design Patterns, Figma, OOPs, Postman, Linux

EXPERIENCE

MCube Advisors Pvt. Ltd. / *Senior Software Developer* *Aug. 2021 – Present*

- Spearheaded full-stack application development, including database architecture, scalable API design, and component-driven UI development using modern JavaScript frameworks
- Translated complex business requirements into functional, interactive modules with seamless UX integration
- Led the team, overseeing task delegation, code quality, and timely delivery under tight deadlines

Anviam Solutions Pvt. Ltd. / *Software Engineer* *Oct. 2020 – Jun. 2021*

- Developed full-stack features for multiple B2B applications with a focus on UI frameworks and backend integration
- Collaborated across teams to improve UI responsiveness and extend frontend component libraries

Moglix / *Software Engineer* *Feb. 2019 – Jul. 2021*

- Contributed to multiple internal platforms, focusing on UI development, functional enhancements, and performance optimization
- Gained hands-on experience with Git, JavaScript (including frameworks), and agile team collaboration

PROJECTS

MCube Advisors Pvt. Ltd / *React, Angular, NPM, Git, Flask, SQL Alchemy, WordPress*

- Craftbot, MCube Official Website

Anviam Solutions Pvt. Ltd / *Angular, HTML, CSS, Bootstrap, SCSS, Tailwind, jQuery*

- Simplifize, One Tank, Parts & Planes

Moglix / *Angular, HTML, CSS, Bootstrap*

- CMS Porta, User Management Portal, Cache Deletion Portal, Q&A Portal, iCAT Portal

Internships / *JAVA, Android Studio, Android, HTML, CSS, JavaScript*

- Netedge Solutions Pvt. Ltd., NASSCOM

EDUCATION

IIMT College of Engineering, Greater Noida

Bachelor of Engineering in Computer Engineering

Aug. 2014 – Jun. 2018

Rajendra College, Chhapra

PCM – ISC, XII

Apr. 2012 – May. 2014

ACHIEVEMENTS

Extra Miler Award (2nd time): Issued by MCube Advisors | June 2024

Extra Miler Award: Issued by MCube Advisors | June 2022

Employee of the Month: Issued by Anviam Solution Pvt Ltd | Jan 2021

PROJECT DETAILS

MCube Advisors Pvt. Ltd / *React, Angular, NPM, Git, Flask, SQL Alchemy, Fitz, AWS Textract, Pandas WordPress*

1. CraftBot:

- Developed a full-stack solution for automating financial analysis of real estate deals.
- Enabled seamless uploading of PDFs/Excel documents via a **React-based frontend**.
- Implemented backend logic in **Flask** to process and extract financial data from documents using **Fitz** (for PDF parsing), **AWS Textract** for OCR and **Redis** for caching.
- Applied business rules to generate structured outputs for underwriting and pre-screening models.
- Ensured high accuracy and efficiency in processing varied document formats.

2. MCube (official website):

- Maintained and enhanced the official website, contributing to the development and feature upgrades of other corporate portals to ensure smooth operation and improved user experience across MCube's online presence.

Anviam Solutions Pvt. Ltd / *Angular, HTML, CSS, Bootstrap, SCSS, Tailwind, jQuery, Drawflow, Chart.js*

1. Simplifyze:

- Built an interactive drag-and-drop platform using **Drawflow** and **Angular**.
- Enabled visual connections across social platforms, providing unified automation, real-time notifications, and administrative controls.

2. One Tank:

- Developed a dashboard to manage tanks, trucks, and users including **admin, distributors, and customers**.
- Implemented real-time visual and tabular representation of tank status and distribution details.

3. Parts & Planes:

- Designed a dual-interface portal for regular users and administrators.
- Managed airplane parts inventory and maintenance workflows with secure access control.

Moglix / *Angular, HTML, CSS, Bootstrap, JavaScript*

1. CMS portal:

- Developed various modules such as brand, category, image, and product **management**.
- Ensured **modular and reusable components** for ease of scalability and maintainability.

2. User Management portal:

- Implemented role-based access control for different **user types**: Admin, Super Admin, and Guest.
- Displayed user data in a responsive, grid-based layout with filtering and management features.

3. Cache deletion portal:

- Built a utility interface to simplify website cache clearing with one-click operations.
- **Enhanced website performance** and data accuracy by automating cache management.

4. Question- Answer portal:

- Developed a feature allowing customers to ask **product-related questions** on the website.
- Enabled backend support for structured responses from the support team, improving customer engagement.

5. iCAT Portal:

- Collaborated on a specialized portal to manage **customer contracts for Unilever**.
- Integrated functionality for contract creation, tracking, editing, and customer notification at each stage.
